FINDINGS

JAVASCRIPT RENDERING · 3 OF 4 PASSED

ISSUE Main product content is injected by JavaScript (214 raw vs 4,187 rendered characters).

<https://example.com/products>

- <https://example.com/products>

Crawlers that do not execute JavaScript will miss most of this page's content.

AJAX / DYNAMIC CONTENT

INFO 2 content endpoint(s) via AJAX/XHR across 1 page(s).

ENDPOINT	METHOD	PARTY	PURPOSE	RESPONSE
https://example.com/api/products?page=1	GET	first-party	content	200 · application/json
https://example.com/api/reviews×3	GET	first-party	content	200 · application/json

JAVASCRIPT-ONLY NAVIGATION

WARNING 15 links on /blog are reachable only after JavaScript runs.

<https://example.com/blog>

- <https://example.com/blog/rendering-and-seo>
- <https://example.com/blog/core-web-vitals>
- <https://example.com/blog/structured-data-basics>

Crawlers relying on raw HTML will not discover these links.

NOINDEX / NOFOLLOW

WARNING Page is set to noindex and will be excluded from search results.

<https://example.com/contact>

- meta robots: noindex, follow

REDIRECTS

WARNING Redirect chain resolves in 2 hops.

<https://example.com/old-home>

- <https://example.com/old-home> → 301
- <http://example.com/home> → 301
- <https://example.com/> → 200

BROKEN LINKS

ISSUE 2 internal links return a 4xx/5xx status.

- <https://example.com/products/discontinued> (404)
- <https://example.com/team/jane-doe> (404)

CANONICAL

WARNING Canonical URL differs from the crawled URL on 1 page.

https://example.com/products?page=2

- https://example.com/products?page=2 → https://example.com/products

Confirm this is intentional consolidation of paginated pages.

HREFLANG

WARNING hreflang return tag missing for 1 language pair.

https://example.com/ → https://example.com/de/
